yesterday, it was discovered that for some time past, how long it cannot be determined, forged notes and checks have been in circulation and the charter of the Covington, Lexington, taken by the hanks and bankers of that quarter. Leontine Lakin, formerly of the firm of Richerds, Lakin & Willetts, and late book-keeper of Chalfant & Fester (Foster, Thompson & Co. is the style of the firm), a dry goods house on Lower Market street, between Sycamore and Broadway. has been for some weeks past selling paper of Messrs. C. and F., which, as these gentlemen en-joyed excellent standing and credit, was readily aken by parties having means to spare.

On Monday afternoon last a check was shown to
Ir. Chalfant, of the firm of C. & F., with an inquiry as to the genuineness of its signature, when that gentleman immediately pronounced it a for-gery, as neither he nor his partner was or had been in the habit of giving out paper, or in any manner endeavoring to raise money for which they had no need. Mr. Lakin was in the store at the time in said county.

It is impossible to learn the extent of Lakin's organies at present, or who are the losers; but the sum forged is estimated at \$5,000 to \$15,000; and one of the firm of Chalfant & Foster gives it a his impression that the amount is in the neigh borhood of \$10,000. C. & F. lose \$2,500, drawn from the Trust Company by Lakin, and several of our banks and bankers are said to hold the forged paper in different amounts. We shall probably

learn particulars to-morrow.

Every Day Brings Something New. So much has been said about Ambrotypes, Photographs, and Daguerreotypes that we hardly know which IMPROVED BAVANA PLAN LOTTERY. deserves the palm. There is one thing, however, that we feel justified in saying to our lady readers, and that Gallery, No. 601 Main street, between Second and Third, they will find so me of those elegantly finished and life-like Daguerreoty pes which, have rendered these rooms the resort of the beauty and fashlon of the city and country. Lacour's Improved Process, For manufacturing Liquers, Cordials, Effervescing Beverages, Vinegar, Bitters, Syruns, Essences, Wines, &c.

FOR 12 TO 50 CENTS TER GAILON.

AN OUTLAY OF \$2 WILL FUR the apparatus for converting Whisky and Water into the strongest Vinegar in 26 hours, at a cost of two to three certs per gallon.

The only vessels beceessary for this purpose are Wine or Whisky barrels. The substances with which they are filled, for the purpose of making Vinegar, can be found in any of the forests of America. As simple sethis process may appear for the production of Vinegar, the publishers will forfeit \$100 for every failure.

The most approved methods are given for constructing Rectifiers. Complete instructions for bottling and barreling all kinds of liquors, and for rendering the appearance of old barrels new, and for giving age to new barrels. Instructions for detecting impurities or adulterations in all kinds of liquors, and for cistinguishing French from other qualities of Brandy. Of the liquors mentioned below, the shock gives two modes of making them; by the first they are made "off hand," requiring only the admixture of the materials as given in the receipts. These are chapiquors; their qualities will be artificial strength, fine taste, and beautiful color. The second mode requires the use of apparatus, and a certain length of time is allowed for the spirit to mellow. These cannot be distinguished from the best imported liquers.
